Packaging technology must balance food protection with other issues, including energy and material costs, heightened social and environmental consciousness, and strict regulations on pollutants and disposal of municipal solid waste.

Food Packaging -- Roles, Materials, and Environmental

THE FOOD LAB Helping to protect children and the community, by testing for radioactive contamination in food, and the environment. Listed here, are the latest International food detection reports for radioactive isotope contamination.

THE FOOD LAB - Sunshine Coast Computer Club Inc.

1. Introduction. For the last 200 years open-cut excavation (i.e. trenching) has been the most widely adopted solution for placing utilities below ground in the UK (Rogers and Hunt, 2006).

Sustainable utility placement via Multi-Utility Tunnels

The tube is lightweight and highly portable and provides water on demand, on site. There were many things we liked about it, but one of the things that really impressed us was the way it dealt with the different water pressures one has to cope with, so th
