## Fractal Flames Arcs of Lavender eBook: John Pirillo

Fractal flames is a member of the iterated function system class of fractals created by Scott Draves in 1992. Draves' open-source code was later ported into Adobe After Effects graphics software [3] and translated into the Apophysis fractal flame editor.

## Fractal flame - Wikipedia

1 The structure of turbulent flames in fractal- and regular-grid-generated turbulence T Sponfeldner1, N Soulopoulos1, F Beyrau1, Y Hardalupas1, AMKP Taylor1,\*

## The Fractal Flame Algorithm - flam3.com

This is my try to make a fractal flame generator on scratch. It can't generate random fractals at the moment, so the fractal looks the same every time you click the green flag. By the way, this is the same fractal I'm using as my profile picture on my main account @peabrainprogram. It was one of the

## Fractal flame generator on Scratch

Fractal Flames is an algorithm to create fractal images based on Iterated Function Systems (IFS) with a finite set of functions. The algorithm uses the Chaos Game [Bar88], which is an

## High Performance Iterated Function Systems - jo.dreggn.org

hi there, thats alot questions ... from the start ... you ommit the first 20 iterations just to get your point on the track ... you plot each iteration, but the starting is most often not in the "real" set that is represented through your set of affine ( or non affine using the so called flame method ...

### **Requesting clarifications on the fractal flame algorithm**

1988) observation of fractal flames in flow fields which do not appear to be fractal. The predicted fractal dimension,  $D = 7/3$ , is consistent with measured values. The analysis is based on the fractal picture of Gouldin (1987) and Peters (1988),

Fractal flames are basically a variant of an iterated function system (IFS). You have a series of functions through which you pass a single point over and over again. Each function is a combination of an affine transformation and one or more variations.
