Evaluating the theory of executive dysfunction in autism

In microeconomics, search theory studies buyers or sellers who cannot instantly find a trading partner, and

must therefore search for a partner prior to transacting. Search theory has been influential in many areas of economics. It has been applied in labor economics to analyze frictional unemployment resulting from job hunting by workers. In consumer theory, it has been applied to analyze purchasing decisions. From a worker's perspective, an acceptable job would be one that pays a high wage, on
